

Isi-Mineral-Cobs

Special features of Isi-Mineral-Cobs:

- ✓ In the practical size of treats
- A supply of minerals, vitamins and trace elements especially adapted for special breeds which are more susceptible to skin- and coat problems
- ✓ Ideally suited for horses which live in a robust environment
- ✓ With kieselguhr, marine algae and brewer's yeast for a nice coat
- With bentonites as a natural support of the metabolism and the detoxification of the organism
- ✓ With hemp oil and black cumin seeds to support sensitive skin

Mineral feed in the practical size of treats for special breeds which are more susceptible to skin- and coat problems. Especially suitable for horses kept in a robust environment (outside)

Ideally suited:

- ✓ For leisure horses kept in a robust environment and prone to have skinand coat problems
- ✓ For special breeds such as Icelandic Ponies/Horses, Irish Tinker, Friesians and others

Isi-Mineral-Cobs supply Icelandic ponies/horses and other special breeds (e.g. Irish Tinker, Friesians) with all vital minerals, vitamins and trace elements and reliably prevents nutritional deficits. For sensitivities of skin and coat the supply of zinc, copper, manganese and selenium support the entire skin metabolism. Enriched with organically bound zinc, manganese and copper to ensure that these vital trace elements in the recipe of Isi-Mineral-Cobs have an optimal bio-availability.

This practical treat-size is ideally suited for horses kept in a robust environment due to the fact that they can be fed without having to mix them with concentrates. Therefore it is possible to supply the horse with all vital substances without adding extra concentrates.

appropriate dose of minerals, vitamins and trace elements Isi-Mineral-Cobs also contains valuable hemp oil, kieselguhr, black cumin seeds and marine algae to improve the skin- and coat function. Added bentonites support the digestion, metabolism and detoxification by binding and channelling out toxins and heavy metals through natural clay minerals.

Feeding recommendations:

Daily 20 g per 100kg body weight – 1 Isi-Mineral-Cob weighs about 10g.

Large horses: 90 – 150g daily = about 9 to 15 Isi-Mineral-Cobs

Small horses and ponies: 40 to 80 g daily = about 4 to 8 Isi-Mineral-Cobs

Isi-Mineral-Cobs

Composition

Wheat bran, mono calcium phosphate, calcearous marine algae, sodium chloride, wheat middlings, sugar beet molasses, dried molasses, corn gluten, wheat germ, brewer's yeast, magnesium oxide, linseed expeller meal, black cumin, calcium carbonate, sea weed, hemp oil, rapeseed oil

Analytical components

Calcium	6,0 %
Phosphorus	3,0 %
Magnesium	2,5 %

Sodium	3,0 %
Potassium	0,9 %

Additives per kg

VII	250 000 : 5
Vitamin A	250.000 I.E.
Vitamin D3	25.000 I.E.
Vitamin E as alpha-tocopherol-acetate	5.000 mg
Vitamin C as L(+)-ascorbic acid – pure substance	2.500 mg
Vitamin B1 as thiamine mononitrate – pure substance	309 mg
Vitamin B2 as riboflavin – pure substance	153 mg
Vitamin B6 as pyridoxine-hydrochloride – pure	152 mg
Vitamin B12	1.200 μg
Nicotinic acid as nicotinamide – pure substance	908 mg
Pantothenic acid as Ca-D-pantothenate – pure	608 mg
Folic acid as folic acid – pure substance	101 mg
Biotin as biotin-preparation	10.000 μg
Choline chloride as choline chloride – pure substance	1.730 mg
Betaine as betain-preparation	1.000 mg
Iron as iron-(II)-sulphate, mono hydrate	1.180 mg
Manganese as manganese oxide	800 mg
Manganese as glycine manganese chelate, hydrate	750 mg
Zinc as zinc oxide	3.040 mg
Zinc as glycine zinc chelate, hydrate	1.500 mg
Zinc as zinc sulphate, mono-hydrate	500 mg
Copper as copper-(II)-sulphate, penta-hydrate	760 mg
Copper as glycine copper chelate, hydrate	300 mg

Bentonite	50.000 mg
Kieselguhr	25.000 mg
Cobalt as coated cobalt-(II)-carbonate-granulate	11 mg
Selenium as sodium selenite	12 mg
lodine as calcium iodate	17 mg
