

Top-Mineral

Special features of Top-Mineral:

- Basic supply of minerals, vitamins and trace elements
- Enriched with sea weed, brewer's yeast, kieselguhr and linseed oil for a shiny coat
- With metabolism-active marine algae
- Contains organically bound zinc, manganese and copper
- Herb-free

Herb-free mineral feed for horses as a basic supply with vital minerals, vitamins and trace elements enriched with kieselguhr, sea weed, brewer's yeast and linseed oil

Ideally suited:

 ✓ For all breeds
✓ Horses and ponies with light to average training intensity Top-Mineral provides a reliable supply of vital minerals, trace elements and vitamins that should not be missed in any ration due to the fact that a deficiency of these important micro-nutrients can lead to a restriction of the entire function of the organism. High-quality marine algae adds mineral substances with an optimal availability into the rations.

Additionally Top-Mineral is enriched with sea-weed which supports the entire vitality of the horse through natural micronutrients. Brewer's yeast and an extensive vitamin-B-complex promote an intact metabolism. To optimise the trace element supply inorganic trace elements have been combined with organic zinc, copper and manganese.

The recipe is additionally rounded off with linseed oil and kieselguhr which support skin and coat in a natural way and lead to a shiny coat.

Top-Mineral has a wide-variety of functions and rounds off the hay/grain ration with vital mineral substances but can also prevent a deficit of mineral substances when the compound feed content is low.

Feeding recommendations:

Daily 20 g per 100 kg body weight

Large horses: 90 to 150 g per day

Small horses and ponys: 40 to 80 g per day

Top-Mineral

Composition

Mono calcium phosphate, calcareous marine algae, wheat bran, calcium carbonate, sugar beet molasses, sodium chloride, Lucerne meal, corn gluten, wheat germs, magnesium oxide, wheat middling, brewer's yeast, linseed expeller meal, rapeseed oil, linseed oil, sea weed

Analytical components

Calcium	10,0 %	Sodium	3,0 %
Phosphorus	3,5 %	Potassium	0,9 %
Magnesium	2,0 %		

Additives per kg

Vitamin A	300.000 I.E.
Vitamin D3	30.000 I.E.
Vitamin E as alpha-tocopherol-acetate	4.000 mg
Vitamin C as L(+)-ascorbic acid – pure substance	2.500 mg
Vitamin B1 as thiamine mononitrate – pure substance	304 mg
Vitamin B2 as riboflavin – pure substance	151 mg
Vitamin B6 as pyridoxine-hydrochloride – pure	151 mg
Vitamin B12	1.200 µg
Nicotinic acid as nicotinamide – pure substance	894 mg
Pantothenic acid as Ca-D-pantothenate – pure substance	604 mg
Folic acid as folic acid – pure substance	101 mg
Biotin as biotin-preparation	10.000 µg
Choline chloride as choline chloride – pure substance	1.615 mg
Betaine as betain-preparation	1.000 mg
Iron as iron-(II)-sulphate, mono hydrate	1.180 mg
Manganese as manganese oxide	800 mg
Manganese as glycine manganese chelate, hydrate	750 mg
Zinc as zinc oxide	3.040 mg
Zinc as glycine zinc chelate, hydrate	1.500 mg
Zinc as zinc sulphate, mono-hydrate	500 mg
Copper als copper-(II)-sulphate, penta-hydrate	760 mg
Copper as glycine copper chelate, hydrate	300 mg

lodine as calcium iodate	17 mg
Selenium as sodium selenite	12 mg
Cobalt as coated cobalt-(II)-carbonate-granulate	11 mg
Kieselguhr	25.000 mg
